b4d347fde0

Minimum:

OS: Windows XP SP2+

Processor: i5 or equivalent

Memory: 4 MB RAM

Graphics: 1 GB Direct X 9

DirectX: Version 9.0

Storage: 3 GB available space

English

The games are lots of fun.. This game has that fresh new experience that indies are made to deliver. The levels are just the right amount in length and not too easy nor too difficult to solve, especially when you correctly use the bonus items you get from trapping spiders. It has good replayability considering that the levels are randomly generated each time you start a new game, so you are always solving new mazes. It does require a system with reasonable graphics capability, so my low-spec laptop was borderline but my desktop with dedicated video card had no issues.. Excellent defensive style strategy game. If you love turtling, this is a game for you.. It is a bit rough around the edges and some issues make it hard to really fall in love with Bertram. Well. No. Don't get me wrong. The humor, the puzzles are enjoyable. The game is overall enjoyable. But with just a few fixes Bertram could have convinced me earlier. I waited with the purchase to make sure fixes were in place (especially after the weird launch) but there still need to come some more to make it an instabuy for adventure fans. I still can recommend it if you are into adventures. Cause it ain't that expensive and it has all the things you love.. bring back the game!

An interesting puzzle game that doesn't overstay its welcome, but doesn't leave you wanting much more. Introducing new elements through each chapter keeps the "basic" gameplay of getting the critters to their home pad interesting through the entire game.. Amazing game, great time killer, and all around fun.. A good balance of relaxing exploration and slightly challenging (but not punishing) platforming.. Good program, cool developer.. When this game first came out, it was a blast. Tons of character customization, lots of players, a decent amount of maps, you get the point.

I tried it again tonight. 12 players online. Same 3 maps (technically 6 but 3 are just reskins). Customization is now locked behind a paywall.

You guys had a great game on your hands and you let it die. A real shame because I was looking forward to getting back into it.. I loved this game on Sega Genesis and now the remade version just makes it even better.. I just wish some talented modder would add a skirmish mode, I just can't recommend this game without it.. The regular game is better than the steam version.. Short but sweet. Looking ahead to more.
